GitHub: [Asjath Ahamath](#)

Email: asjath904@gmail.com

Mobile No: +94 75 507 1696

Location: Colombo, Sri Lanka

Software Engineering graduate with hands-on experience in web and full-stack application development. Experienced in developing and maintaining applications using PHP, Laravel, React, React Native, C#, .NET, JavaScript, and SQL databases. Skilled in REST APIs, database design, Git, debugging, and Agile software development practices, with experience collaborating in professional development teams.

TECHNICAL SKILLS

Programming Languages: C#, Java, PHP, JavaScript, Python, Dart

Frontend: React, React Native, Flutter, HTML, CSS, Tailwind CSS

Backend & Frameworks: Laravel, .NET, ASP.NET, Node.js

Databases: MySQL, Microsoft SQL Server, PostgreSQL, Firebase

APIs & Services: REST APIs, Google Maps API, Google Gemini AI

Tools & Platforms: Git, GitHub, Postman, Jira, Figma

PROFESSIONAL EXPERIENCE

Software Engineer Intern | GoSetup Pvt Ltd

February 2026 - August 2026

- Developed and maintained Laravel-based web application features using PHP, Laravel, and MySQL.
- Implemented backend functionality, database operations, and application features based on project requirements.
- Investigated, debugged, and resolved software issues while testing new and existing application features.
- Used Git-based version control and participated in code reviews and Agile development discussions.
- Collaborated with senior developers to follow coding standards, software development practices, and project requirements.

KEY PROJECTS

Track Me Buddy | Full-Stack Mobile & Web Application

Technologies: React Native, React.js, Node.js, Firebase, Google Maps API, Google Gemini AI

GitHub: <https://github.com/AsjathAhamath/TrackMeBuddyMobileApplication>

- Developed a real-time group location tracking application for multi-vehicle travel coordination.
- Implemented live GPS location sharing, distance monitoring, and route visualization using React Native and Google Maps API.
- Integrated Firebase for real-time data synchronization and trip-related information management.
- Implemented an SOS emergency alert feature with real-time location sharing.
- Integrated Google Gemini AI to provide travel-related assistance.
- Developed an administrative dashboard for managing users and trips.

EShift – Logistics Management System

Technologies: C#, .NET, Windows Forms, MS SQL Server

GitHub: https://github.com/AsjathAhamath/AdCw_01

- Developed a Windows-based logistics management system.
- Implemented CRUD operations and role-based authentication
- Built modules for scheduling, transport allocation, and tracking
- Designed and managed relational database
- Implemented payment and reporting features

Bus Seat Reservation System (Data Structures & Algorithms)

Technologies: Java, Data Structures & Algorithms

GitHub: <https://github.com/AsjathAhamath/Bus-Reservation-with-DSA>

- Developed a console-based bus reservation system using Java
- Implemented seat booking, cancellation, and customer management features

- Used Queue data structure for waiting list management
- Applied Stack for handling recent operations
- Implemented search functionality based on route and availability
- Used sorting algorithms to organize customer data
- Applied OOP principles for modular and maintainable design

EDUCATION

BEng (Hons) Software Engineering

2025 - 2026

London Metropolitan University (via ESOF Metro Campus)

HND in Computing (Software Engineering)

2023 - 2025

Pearson BTEC (via ESOF Metro Campus)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Microsoft Learn

- **Design and Implement Database Objects with SQL** - SQL, Microsoft SQL Server, Database Design | Sep 2026 | [Credential](#)
- **Implement Programmability Objects with SQL** - T-SQL, Stored Procedures, Microsoft SQL Server | Sep 2026 | [Credential](#)
- **Work Smarter with AI** - Artificial Intelligence, Generative AI, Microsoft Copilot | Sep 2026 | [Credential](#)
- **Draft Impactful Documents Using AI** - Microsoft Copilot, Artificial Intelligence | Sep 2026 | [Credential](#)
- **Unlock Productivity and Unleash Creativity with AI-Powered Chat** - Microsoft Copilot, Artificial Intelligence | Sep 2026 | [Credential](#)
- **Uncover New Data Insights with AI** - Artificial Intelligence, Data Analysis, Microsoft Copilot | Sep 2026 | [Credential](#)

ACTIVITIES & ACHIEVEMENTS

Winner – Graffon Puzzle Challenge, Google DevFest Sri Lanka 2025

- Won a technical puzzle challenge demonstrating problem-solving and logical reasoning skills.

ThinkFest Hackathon 2025

- Participated in a national-level hackathon representing ESOF Metro Campus.
- Collaborated with a team to develop an AI-powered solution.

Google DevFest Sri Lanka 2025

- Attended technical sessions and networking activities focused on AI and cloud technologies.

LANGUAGES

- **Tamil:** Native
- **English:** Professional Working Proficiency
- **Sinhala:** Conversational
